

Centrifugal Filtration

A Reliable Media Free Filtration

C90 Hi Efficiency Centrifuges available in different shapes and configuration.

Features:

- Small foot print machine.
- Solution for one or a group of machines.
- Easy and simple operation. Not flooding.
- Low cost machine.
- Stationary or mobile unit. – Fast money pay back.
- Std. and tailor made possibilities.
- Wide range of applications:
 - Grinding carbide\steel\HSS.
 - Machining of steels.
 - Removal of sludge –Vibratory surface finishing, Chemistry, etc.
- Perform on oil's, soluble and other liquids.
- With or without tank.
- Variable speed up to 3000G.
- Fine coolant filtration : 3-7 microns.
- Flow rate: 85 LPM on water base liquids.
75 LPM on net oil.
- Floor space: 0.7m x 0.7 m. x 0.7 m height.
- Fabrication: steel, stainless or plastics.
- Built in anti foam unit.
- Low noise level.
